Brussels, Belgium (flexible on location in Belgium/ open to remote opportunities)

Developer Portfolio: <https://ievadirmiene.eu>

SOFTWARE ENGINEERING SKILLS

- **React:** classes, hooks, context, Material UI, Redux, Redux Toolkit
- **Node.js:** Vanilla & Express.
- **JavaScript:** ES6+, AJAX & API's - REST and GraphQL, Animation (Greensock), Graphing (d3.js) & Realtime (websockets and <http://socket.io/socket.io>), OAuth, Git, Github.
- **Testing:** TypeScript, Cypress, Vitest, Vite
- **Databases:** SQL - MySQL, NoSQL - MongoDB with Mongoose.js, Redis, Firebase, GraphCMS/Hygraph
- **DevOps:** Docker & Kubernetes, Vercel (inc. CI/CD), serverless (inc. Netlify). cPanel, Apache, XAMPP
- **CSS 3:** Responsive design, Flexbox & CSS Grid, pre-processors (SASS), and CSS frameworks.
- **HTML5:** Semantically correct for accessibility and SEO.

KEY PROJECTS

Project "Mars Messengers" <http://marsmessengers.co.uk>

Tech Used: Full-stack

What functionality it demonstrates: React-Redux toolkit app connecting NASA Api database, displaying images from Mars depending on calendar and rover's name.

What technical skills it demonstrates: Project utilises React and Redux-toolkit, connects to database and retrieves latest images data and images by the calendar using Axios, connecting SQL database for users data storage, using Joi for forms validation, implemented Toastify for notifications, Express.js framework for managing routes, login and register, update user info, hashed password and prepared statements for controlling security levels, created bits of additional content using Wikipedia source and official Mars website about Nasa technologies operating on Mars, filtering options by rover's name, controlling API calls with data controllers utility, navigation with screenmodes variables, pure CSS for design, fully responsive from mobile to computer screens.

Project "Music Preview App" : <https://music-preview-api-with-deezer.netlify.app/>

Tech Used: Front-end

What functionality it demonstrates: Pure Javascript app to retrieve data from Deezer API using Axios.

What technical skills it demonstrates: Coding in Vanilla Javascript, retrieving songs from a database by search term - artist, band or song name, display and possibility to listen to short fragments, DOM manipulation, CSS styling, responsive.

EDUCATION

The Jump Digital School

Jan 2023 - Aug 2023

- A 30-week programme of Full-Stack Software Engineering Training
- Training to develop and deploy full-stack web applications to a professional standard
- Delivered individual and team projects, remotely, including participation in a hackathon

General Assembly

Oct 2022 - Dec 2022

- Front End Development Course

Kaunas University of Technology

2007-2009

- Master of Business Administration (MBA)

PROFESSIONAL EXPERIENCE

Sabbatical - full-time parent

2013- present

Kesko & Senukai, Lithuania

Apr 2009 - Nov 2011

Office Administrator

- Developing policies and procedures for the office
- Managing multiple stakeholder diaries
- Event management

Swedbank AB, Lithuania

Oct 2007 - Nov 2009

Bank Teller

- Client facing role, promoting bank services and supporting customer decision making
- Driving sales through excellent customer service and problem solving

ADDITIONAL INFORMATION

- I have the right to work in the UK
 - Immediately available for interview
 - Fluent in English, French and Lithuanian.
-
